

Quality Policy

Corewire Ltd. has established, documented and implemented their Quality Management System (QMS) in accordance with the requirements of ISO 9001:2015. Due regard is given to our context, the needs and expectations of interested Parties, Regulatory & Statutory requirements and the Risks & Opportunities identified in relation to these and any other Processes/Activities undertaken during Production operations carried out at Station Road West. We promote cost effective Quality Management through continuous improvement aimed at cost reduction, and using improved equipment, processes and technology.

Our aim is to establish Corewire Ltd. as the foremost worldwide supplier of Hard Facing welding consumables to industry. The products and services we supply must exceed the expectations of our customers, who we regard as long-term partners.

External providers (Suppliers) are, where necessary, provided with product specifications and documentation requirements.

Corewire Ltd. verifies the output of our customer's requirements through measurements, checks, and visual inspections of the manufactured product(s) to meet customer specifications.

Corewire Ltd. utilises Quality System Procedures and work instructions to provide our employees with detailed "How To" guidance. All employees have a responsibility to follow this system, and to make pro-active recommendations for change where they believe it is of benefit to the company. Corewire Ltd. invests in suitable training to ensure that our employees have the necessary skills to participate in our drive to achieve and maintain world-class quality.

The documents support the achievement of quality compliance for each of the process steps. We retain Quality Documentation (QD) which provides documented evidence that the process inputs and outputs have been accomplished as planned.
